

ABOUT THE SYMPOSIUM

On Thursday, March 12, 2020, ACMT will hold a one-day symposium, "Opioid Epidemic: Controversies and Creative Solutions" at the Grand Hyatt in New York City. The symposium precedes the 2020 Annual Scientific Meeting (March 13-15) at the same venue.

Our conference will go beyond the basics and discuss big-picture approaches to the opioid epidemic. We will address novel, cutting edge, and controversial approaches, including safe-injection sites, mobile buprenorphine induction, urban greening, and others.

ABOUT ACMT

Founded in 1993, the American College of Medical Toxicology is a professional, nonprofit association of physicians with recognized expertise and board certification in medical toxicology. Our members specialize in the prevention, evaluation, treatment, and monitoring of injury and illness from exposures to drugs and chemicals, as well as biological and radiological agents. We care for people in clinical, academic, governmental, and public health settings, and provide poison control center leadership.

Membership

ACMT offers a variety of membership categories. Join ACMT and you can take advantage of valuable benefits such as:

- ACMT conference discounts
