NYSAM 2025 INTERSECTION OF SCIENCE, TREATMENT AND POLICY CONFERENCE

ABOUT THE CONFERENCE

This conference has been designed for physicians, medical students/residents, and addiction professionals. Join physicians and other health professionals at the New York Society of Addiction Medicine's Annual Medical-Scientific Conference. Learn about cutting-edge addiction medicine issues and exchange ideas about developments in NYS and across the nation. This conference offers state-of-the-art presentations highlighting the most recent developments in addiction medicine. This conference will increase your skills and build your confidence in evaluating and making appropriate decisions for treating addictive disorders in diverse populations.

LEARNING OBJECTIVES

At the conclusion of this activity; participants will be able to:

Examine

Examine emerging evidence in substance use disorder prevention, treatment, and harm reduction

Discuss

Discuss public policy updates related to substance use and addiction care

Describe

Describe clinical complexities in addiction care as well as potential approaches to address the challenges

Engage

Engage with clinical innovations and research projects presented by early career and interdisciplinary members of the addiction workforce
